

Compost Tea

What You Need:

- 5 gallon bucket
- Compost
- Water
- Cheesecloth
- Watering Can

Directions:

Add compost to your bucket to 1/3 full. Fill the rest of the way with water.

Allow to sit up to 4 days.

Strain through a cheesecloth into another bucket.

Use to water indoor plants as needed.

Note: Can be used after 24 hours but 3 or 4 days provides more nutrients for the plants.
